Eight Hour Movement.

The Final Result of the May Day Demonstrations.

MR POWDERLY INTERVIEWED.

He Snys It is to Convince the Public That the Labor Element is in Favor of Shorter Hours for the Tollers - Dispatches From Various Places on the Labor Question.

SCRANTON, Pu., May 1.—General Master Workman Powderly, of the Knights of Labor, was seen at his home hy a reporter of the United Press. The muster workman had just returned from Buffalo, where he had gone to aid in adjnsting labor differences. He was asked his views concerning the labor demonstration in New York and elsewhere and at first stated that he had nothing to say and that all such information should come from Mr. Gompers, president of the Federation of Lubor, under whose auspices the demonstration would be

Mr. Powderly said that he would address a labor meeting in Jersey City this eyening, at which time he would air his ideas concerning this great labor movement. Warming up to the subject later, he said that his position on this question was too well known to need any explanation. He had always favored an eighthour law. The Knights of Lubor had also endowed it adopting a prepublic also endorsed it, adopting a preamble favoring it at the general assembly in 1878. As he miderstood it, to-day's demoustrations throughout the country were to convince the public that the labor element was really in favor of shorter hours for the toilers. It has been alleged by many that the eight-hour movement was simply for enect and that the workmen did not really favor it. After the demonstration it was to be hoped that there would be no unitine charges of the kind.

"The movement to secure an eighthour law is an universal one," said Mr. Powderly, "and we are all working steadily for it. Within the last few years about thirty industries employing labor have adopted it, and still others have adopted the nivelence of the said of t have adopted the nine-hour system. In some instances workmen received but eight hours' compensation, and in others they got ten hours' pay for eight honrs' work. Other industries pay their workmen ten hours' compensation for niue honrs' work.

"The plan which I recommend to the general assembly, was to reduce the hours of labor one-half hour each year till au eight-hour system could be obtained with 1en hours pay. This has been adopted by the Union Pacific Railway company and in three years their men will be working eight hours daily. I believe that the American Federation of Labor is concentrating its efforts in favor of the carpenters just now and if largest class of mechanics which have a membership in the Federation. The cigaruakers are already working on the eight-hour system, at least all who were members of the Kuights of Labor.

"You will see" couclided Mr. Powder-"That this eight-hour law is a most righteons one, when you remember that a man can perform between the hours of eight and twelve in the morning more labor with the implements of the present than two men could perform in two days of ten hours each with the implements used forty-eight years ago. The genius of the mechanic provided this labor-saving unachinery, and it is but right that he should share its benefits. However, the solution of the whole problem will come when the lubovor shares the profits of his toil. As he will be then working for himself, he can labor then eight or ten hours, as he may desire.

Labar Day in Chleaga.

Cincago, Muy 1.—Labor's annual holiday will be celebrated to-duy by nearly every trade organization in the city. The parade promises to be a monster affair. The many that have spoken for places in it will turn out full quotas, and it is estimated that no less than 50,000 men will be in line. The one significant feature of the parade is that it will in a measure indicate the extent of the eight hour agitation, for nearly all the unious that will participate will be found arrayed on the side of the men who are fighting for a shorter working day. A mouster mass meeting will be held on the lake front after the parade, which will be addressed by Judges Tnley, Altgeld, Tuthill and Prendergast, Congressman Frank Lawler, Charles F. Seib, of the eigarmaker's union, and W. H. Kliver, vice president of the carpenters'

While the molders as a body are in favor of a shorter work day, they will take no united action on the subject, owing to the fact that a large number of their men are tied up by contracts. The men employed in the shops of R. T. Craue & Company, the men in the malleable iron works on Blue Island avenue have demanded eight hours and an advance of 10 per cent. in wages. It is expected that their example will be followed by the forces at McCormick's, Freuch's car shops and other extensive fited by it.

ers last night the prospective strike at the stock yards was practically declared off. This action is said to be in accordance with the wish of the American Federation of Labor who want to settle the carpenters' fight before another is inaugurated. The decision seemed to meet with satisfaction on the part of a majority of the worknen. The failure of this movement practically puts an end to the general movement und greatly reduces the chances of impending trouble.

Boston, May 1.—The three carpenters unions of Boston held a mass meeting last night for final action on the strike question and the committee on arbitration having reported the failure of all their efforts, it was unanimously voted that all men employed by firms which have conceaed eight hours, go to work as as oil, but that all those employ-Doilders associations e with a to Bailders associations, shoul-stoy on . The men are confident of success and say they will have the aid of the American United Brotherhood of Carpenters, the Amalgamated Society of Carpenters' and Joiners' of the World and the American Federation of Lubor.

The Lasters' Protective union convention met here yesterday with 134 representatives of sixty-nine branches of the union present. Business in nearly every shoe center of the country was reported good, and Edward McSweeny was elect-

Demands of Ballroad Employes. Altoona, Pa., May 1.—The brakemen of the Altoona division, Pennsylvania railway, asked for an increase from \$1.65 to \$4.16 for day employes and \$2.18 for a night of twelve hours, and it is probable that these demands will be granted. Similar demands will be made by the conductors, engine men and firemen of the same division. They will ask for the same ratio of raise. Beginning with to-day all the large shops will work only nine hours a day instead of ten, as heretofore. The general uneasiness in railroad circles has evidently reached here, but no strike is feared. The reduction in hours is said to be due to the strike troubles in Pittsburg.

Boston, May 1.—The Colliers' Protective union is distributing upon the streets an appeal for a boycott upon coal hoisted by machinery. The circular says that the use of machinery will throw 1,500 colliers out of employment, besides large numbers of coopers, blucksmiths, rope-makers and wheelwrights.

Pittskurg Trouble Settled.

PITTSBURG, May 1. - The supreme conneil of the Federated Order of Railway Employes held a final meeting yesterday and decided to accept the propositions of the different railroad companies centering in this city made to their yard employes, which is twenty-four cents an hour for day conductors and twenty-five cents for night, and eighteen cents an hour for brakemen, and uineteen cents for night brakemen. This is quite an advance over former wages for this locality.

Union Men Being Crowded Out.

TAUNTON, Mass., May 1.—The journeymens' demand for nine hours has been acceded to without dissent. Of 150 journeymen carpenters, twentythree belong to the union, and so unanimous is the feeling against the uine hour demand that it is thought the union men will have to give up or be crowded out of work, of which there is very little at the present time. A dozen hodearriers on the new yarn mill at Weir village struck yesterday afternoon for twentyfive cetts racrease. They were refused, and others were hired at once.

Two Thousand Strike in Detroit.

DETROIT, Mich., May 1.-The Builders' Exchauge yestorday evening refused the demands of the carpenters for an eight-hour day and thirty cents an hour. About 2,000 carpenters have struck. A special to The News from Duluth, Minn., says: All the coal dock hands to

THREE TOWNS IN GREAT DANGER

False River, West Haton Rouge and Iherville Are the Sufferers-One of the Hrenks Closed-Cost of Closing One of the Crevusses and the Benefits to He Derived Therefrom.

BAYOU SARA, La., May 1.—The old levee in front of Hermitage, Point Coupee side, caved in at 3 o'clock yester-day morning, and the water thus forced against the new levee caused the latter to give way at 6 a.m. This crevasse will prove disastrous to False river, West Baton Rouge and Iberville, and will also put the Grosse Tete levees to a severe test. There is no material change in the situation at Morgauza. The break in the Bayon Sara front was closed yesterday.

INDIANA'S GOVERNOR.

It is Said He May Not Live to Serve to the End of His Term.

Indianapolis, May 1,-The friends of Governor Hovey are becoming very much ularmed over his condition. One of them said Tuesday that he did not believe the governor would serve to the end of his term. Some three months ago Mr. Hovey suffered a severe uttack of the grip and this was followed by a very

acute form of rheumatism.

He was still suffering from the latter disease when dropsical tendencies became plainly marked, and he is now in very feeble health. He is frequently absent all day from his office, and when he comes down he is compelled to use a carriage. It is with great difficulty that he walks even on the smooth oiling floor of the capitol, and he goes in and out of his carriage only with assistance.

Rope-Walk Burned.

CINCINNATI, May 1.—Charles C. Jacob's rope-walk at Cumminsville was destroyed by fire yesterday, which entailed a loss of over \$20,000 and rendered five fauilies homeless. The flames originated from an overheated pitch pot. The limiting a one and one-half-story frame. building, a one and one-half-story frame 50 by 300 feet, was owned by Henry Dreman, and adjoined his residence. The rope-walk was completely destroyed—loss \$4,090—and Dreman sustained \$8,-000 loss on the building, which was insured to the extent of \$5,000. The loss on Dremau's residence was \$2,000. Other losses sustained on adjoining property none of which was insured, are as follows: Joseph Rice, employed in the rope-walk, frame dwelling, \$1,000; Andrew Wiggins and Jacob Lee, double residence, loss \$2,509. The honse was occupied by Charles Boyd and Lee. George Turner, frame dwelling, occupied by Daniel Hopkins, loss \$750.

Crazed by Her Husband's Murder. Columnus, Ind., May 1.-Mrs. John Kilgour, aged 34 years, whose husband was shot dead with a musket at Madison, Ind., Jan. 2, 1890, by Leandey Henderson, who is now serving a fifteenyear sentence in the state prison, was yesterday taken to the Indiana insane asylum at Indianupolis, where she will be carefully guarded, having lost her reason at the time of the nuarder. She had raven hair, but to-day it is as white as snow, and though she is not vicious, she does not know her own children, and fancies she sees the face of her husband's assassin constantly before her, which she is trying to shun.

A Spotter in Disguise, Indianapolis, May 1.—The Railroad Conductors' association is smarting under the wholesule discharge of its members by lines contering here. Nearly all the men discharged were Masons of the Thirty-second degree, and it is claimed that their discharge was brought about by a fellow-Mason of the same degree, who traveled over all the roads and succeeded in getting transportation by giving the Mason sign of distress. He proved afterward to be a spotter, and reported every man who showed him a favor. The discharges followed

CARRIED IN THE COURTS. The Ilig Men of The World Indicted for Criminai Libel.

NEW YORK, May 1.—The grand jury has just handed in indiotments against Joseph Pulitzer, John A. Cockerill, Julius Chambers and James F. Graham, of The New York World, for criminal libel of ex-Judge Hilton.

The World says editorially this morning in regard to Judge Hilton's indictmeut against the paper for alleged libel upon the late A. T. Stewart: "The judge cannot shield himself behind the ghost of the man whose generosity he abused. The World repeats the charge that Hilton preyed upon Stewart and robbed Mrs. Stewart, and it invites him to test the truth of the charges in the courts."

Furmers' Fatai Quarrel.

BOLIYAR, N. Y., Muy 1.—Yesterday Henry Smith, a farmer residing at Jordan Hill, near here, shot Rufus Carneghan, also farmer, with a revolver. The men disputed about the trespassing of stock on each other's property. Hot words cate a practical yield of thirty toos per were followed by blows and during the acre. It is assected that this means a ta sle Snath produced a revolver and possible ultimate annual production of vitteent warning discharged two shots into Carachan's body. A CALF INSTEAD OF KEMMLER.

Warden Durston Demonstrates That Electricity is Instant Death.

AUBURN, N. Y., May 1.—In an interview with Warden Durston yesterday, he detailed the preparations he had made for the execution of Kennuler before the writ had been served upon him. Tuesday movning, at 6:30, the belt was put on the dynamo and the engine run several minutes to see if the bearings, pul-

eral minutes to see if the bearings, pulleys, etc., were in proper order.

The machinery was found to be in perfect condition, and it was decided to put the belt on again at 5:30 and keep the steam up all night. The story that he had ever intended to go on with the execution Tuesday morning was utterly without foundation. His invitations to witnesses did not ask them to report until 9:30 Tuesday evening.

9:30 Thesday evening.

He had made up his mind to have the execution occur between that hour and 6:30 Wednesday morning if the linal test proved successful. This test was executed at half-past 5, after the writhad been served, for his own satisfaction. Ten of the invited witnesses were present. A six weeks' old calf weighing 160 pounds was the subject. It was laid on the floor of the chamber of death

with its legs tied.

The electrodes were placed at the head and base of the spine and the dynamo started. When the volt meter registered 1,000 the fatal switch was thrown into position, and the calf surrendered its leg with but one perceptible tremor of one leg. Death was as instantaneous as by a lightning stroke.

Dr. Fell was present, but considered it useless to experiment with his resuscitating amounts.

A Convict Sulcides. COLUMBUS, O., May 1.—At the penitentiary yearerday R. H. Townsend, a fifteen year man from Toledo for assault to kill, committed suicide in a tragio manner. He was Warden Cofain's cook and a snort young mubitto. He planned escape and was detected by Coffin and the incoming warden, Ben. Dyer, with a suit of citizen's clothes on over his stripes. He admitted his guilt, but whipped out a razor and cut his throat, falling into Coffin's arras and dying. The tragedy occurred in Townsend's room in the warden's residence.

The Tragle Killing of a Wife Benter. Mempins, Tenn., May 1.—Jake Acker-MEMPINS, Tenn., May 1.—Jake Ackerman, brought up in this city, and known as a thief, burglar and highwayman, was arrested for wife whipping. When his case was called in the police court yesterday morning, the wife, who is a prostitute, appeared as a witness, and, without any words, fired three shots from a pistol concealed under her cloak, all taking effect. Ackerman died one all taking effect. Ackerman died one hour after the shooting. The deceased was wanted at various places for his many criminal acts.

Blown to Atoms by Dynamite.

Bradford, Pa., May 1.—A special to The Era from Butler, Pa., says Mrs. Au-na E. Edwards, aged 78 years, was blown to atoms by the explosion of a nitroplgcerine can here yesterday evening. It seems the woman found the can in a brush pile, and, not knowing the daugerous compound it contained, took it home and attempted to convert the can into something useful for the household when the explosion occurred with the fatal result.

Hundreds of Acres of Fire.

Minnearous, Minn., May 1.—A special to The Tribune from Maudan, N. Dak., says: The worst live for sixteen years swept through the timbers southeast of town yesterday. A large amount of drift wood had accumulated, and the high wind made a tremendous fire. A few settlers' shacks burned, but there is no great loss to property except of timber, hundreds of acres of which is practically destroyed.

Ten Men Fail Thirty Feet.

Cincago, May 1.—An insecure scaffold on a new ice house being erected at the stock yards for Swift & Company, gave way yesterday afternoon, and precipitated ten workmen to the ground, a distance of thirty feet. All were injured more or less seriously, and two of them, Herman Kaufman and John Gregor will probably die. They were all masons and their helpers.

A MANUFACTURER of lamp chimneys doing business at Pittsburg told the Republican Ways and Means Committee a few weeks ago that he could compete with the world if they would give him the raw material free of duty. In the face of this, why should the McKinley Tariff bill increase the tax on lamp chimneys from 45 to 450 per cent.?

CORPORAL TANNER is reported on the war path, and is after President Harrison's scalp for having him turned out of the Pension office. The Corporal has started for the West, intending to "stump reached favored the adoption of the fedit" through Indiana, informing the Hoosier boys that Harrison's promises of pension and pie for all were hollow shams, and that there was never any intention to redeem them. Let the Democrats stand back and enjoy this little Republican side show.

A LATE interview with Major McKluley in the Philadelphia Inquirer reports that distinguished statesman as saying: "I think, with the great new States added days on this question. The programme to the galaxy in the Northwest, that the is, if possible, to have the election bill Republican party is very likely to be again intrusted with power." This is an from the Speaker's table in the House indirect admission that the g. o. p. would not stand much of a show to win without these "great new States." All of which accounts for the haste of the Republicans in bringing these new States to ssimilate the Senate methods of coninto the Union.

The New York Sun is pursuing ex-President Cleveland with a persistency and malignancy which show that its editor, Charles A. Dana, is actuated largely by personal motives. But if the Covington Commonwealth is right, "it has been a characteristic of Dana to decry and try to pull down every strong man in public life. It wounds his vanity to see others reach a measure of popularity and official height which he could never hope to attain.

"He did not like Stanton, whose subordinate he was. He abandoned his party and came over to the Democracy when Grant failed to elevate him as high in office as he thought he deserved. His support of Greeley was for more sarcastic than sincere. He deserted Hancock and betrayed the party on a pretext that was too weak and transparent to be worthy of a moment's consideration. He gave such influence as the Sun possessed to Butler against Cleveland, because the latter was too strong with the party and the people to come under his dictation.

"The eonspicuous and controlling principle of his entire eareer has been to ruin where he could not rule, and he has done his best to carry out that principle in every public situation he has occupied, whether us an official, a politician, or an editor."

Mr. Dana may be honest in his persistent attacks on Mr. Cleveland, but if he farcies he can lower the ex-President in the estimation of the people of the land, and especially in the estimation of the Democracy, he is sadly mistaken.

THAT CHALLENGE.

The Fiery Message Never Offered to the Telegraph Company.

Evidently some of the newspaper mer. at Frankfort are trying to place W. P. Campbell before the public in as ridiculons a light as possib'e, and the worst of it is that gentleman doesn't seem to be making any effort to put a stop to it

A Conrier-Journal dispatch was copied yesterday in which it was stated that Mr. Campbell on receiving back from Mr. Thomas R. Phister that "fiery message' sent to Mr. Davis, rushed forthwith to the telegraph office to forward the challenge by wire, but that Captain Taylor, operator, refused to send it.

Captain Taylor now says Campbell never offered such a message; that he (Campbell) didn't try to send any challenge by wire, and that the message will be sent any time he wants to pay for it.

WASHINGTON, May 1.—After the rending of the journal the house proceeded to vote on the passage of the bill for the classification of worsted cloth and woolen cloths. The bill was passedyeas 138, nays 0-the speaker counting a quorum. The text of the bill is as follows: That the secretary of the treasury be and hereby is authorized and directed to classify as woolen cloths all imports of worsted cloth, whether known under the names of worsted or diagounds, or other-

Mr. McKinley, of Ohio, from the committee on rules, reported a resolu-tion providing for the immediate consideration of the senate service pension bill, to which the Morrill service pension bill may be ordered as a substitute, the previous emestion to be considered as ordered at 4 o'clock.

Mr. Carhsie, of Kentucky, protested against the adoption of resolutions of this character, which took away from the committee of whole the right to consider money bills, and forced the house to a vote upon them after a luief debate. The Oklahoma bill had been taken out of the committee of the whole with the previous question ordered upon it. The same had been true of the great court bill. If this was not a confession that the new code of rules had failed to facilitate the business of the house he did not under tand its meaning.

Mr. McKinley argued that the reslontion was justified under the present code of rules and by the precedent set by the house over which the gentleman from Kentucky (Mr. Carlisle), preside l. The Republicans wanted to do the public business of the country. What the country wanted was results and not speeches.

The resolution was adopted and Mr. Morrill, of Kansas, took the floor in explanation and support of his bill. He said that this act of justice had been too long postponed. If the government were to grant a service pension it should do it without delay.

Mr. Yoder, of Onio, spoke in favor of the service pension bill which had been endorsed by the G. A. R. and other veteran organizations. The minority opposed the Morrill bill not because it paid pensions but because it did not grant liberal pensions. He charged the Re-publicans with being untrue to their promises to the soldier

Mr. Tarsney opposed the bill because it did not discriminate properly between the soldier who served three months and the one who served three years. Mr. Spinola criticised the haste with

which the bill was rushed through. Mr. Sawyer, of New York, arraigned the Democratic party for opposing pension legislation.

Mr. Reilly, of Pennsylvania, Mr. Kerr. of Iowa, Mr. J. D. Taylor, of Ohio, advocated the bill.

Mr. Grosvenor, of Ohio, said that nuder this bill the pension expenditure would be increased to \$150,000,000 annually, or 43 per cent, of the gross income of the government.

After an extended debate in which Springer, of Illinois, Turner and Perkins, of Kansas, and Cutcheon, of Michigan, participated, the bill was ordered to a vote. An amendment of Mr. Yoder providing for a per diem pension was ruled out on point of order. The caucus amendment reducing the age limitation from sixty-two to sixty years was agreed to.

The Morrill bill was then passed as a substitute for the senate bill. Yeas 183,

Mr. Yoder moved to recommit the bill with instructions to report back a per diem pension bill. This was lost, yeas 48, nays 161.

The following is the allirmative vote: Barwig, Biggs, Brickner, Brookshire, Buckalew, Bynnin, Campbell, Caruth. Chipman, Clancy, Clunie, Cooper of Indiana, Covert, Cummings, Dumpby, Fitch, Flower, Fowler, Geissenlwimer, Gibson, Goodnight, Haynes, Holman, Magner, Martin of Indiana, McAdoo, McClellan, McCreary, O'Neil of Massachusetts, Outhwaite, Owens of Ohio, Parret, Paynter, Pennington, Pickler, Reilly, Seney, Shively, Spinola, Spring-er, Stone of Kentucky, Tarsney, Tracy, Turner of New York, Whiting, Williams of Illinois, Yoder.

The senate bill as amended by the

substitute was then passed-year 179,

The bill authorizes the secretary of the interior to place on the pension roll the name of any officer or enlisted man of 60 years of age or over, or who shall heredays or more in the army, navy, or marine comes of the United States during the war of the rebellion, and shall have received an honorable discharge therefore, and at the rate of the army. from, and at the rate of \$8 a month. All persons who served ninety days or more in the military or naval service of the United States during the late war and May. Her marriage with Mr. Navarro who have been honorably discharged will be solemnized at the Brompton oratherefrom, and who are now or may hereafter be suffering from mental or physical disability, equivalent to the grade now established in the pension office for the rating of \$3 per month, shall be placed upon the list of invalid pensioners of the United States at the rate of \$8 per month. It also provides for a pension to the widow of any soldier when she shall arrive at the age of 60 years, or when she shall be without other means of support than her daily

governments of Great Britain and Mexico with a view of securing treaty stipulations for the prevention of the entry into the United States of Chinese from Canada and Mexico, and he asked for its immediate consideration. Mr. Ingalls objected, however, and the resolution went over. The senate resumed consideration of the customs administrative bill.

The amendment offered by Mr. Davis, that in cases of the importation of books, magazines and periodicals in several parts, but one declaration of entry shall be required, was agreed to.

The amendment offered by Mr. Vest, proving that the general appraisers who originally acted in a case shall be excluded from the board of three general appraisers to which an appeal may be made, was discussed at much length.

Mr. Evarts argued against the amendment on the ground that a hearing before a board of appraisers could not be regarded as in any sense a judicial prozeeding.
Mr. Vest's amendment was rejected—

yeas 20, nays 20. The bill was then laid aside. Mr. Platt offered a resolution, which was agreed to, for a correction of the Oklahoma bill by substituting the word "east" for the word "west."
